

Indian Capital Technology Center
Sallisaw, OK February 20, 2009

OVERVIEW

Roland TSA (Technology Student Association) and Vian TSA have partnered with Indian Capital Technology Center in Sallisaw, OK in coordinating the third annual Sequoyah County Technology Challenge. All parties involved in the development of this event are extremely excited of this opportunity. Local businesses are assisting in sponsoring the contest again to help make this a fun and worthy event.

EVENTS

Most competitive events for the Sequoyah County Technology Challenge will follow TSA themes, rules, and guidelines. Some deviation of the themes may occur.

PARKING

Please view the campus map to see parking areas. Buses will need to follow the bus route so they do not run into problems. Please note that it is a small campus, and if all of the buses drive in and park in unison there should be no problems.

DIRECTIONS

After exiting I-40 at exit 308 (McDonald's & Wal-Mart exit) turn south. Make a left turn on Houser Ave. You should see the cemetery, just turn like you want to go in through the gates. This is a sharp turn, so if you're in a bus be sure to allow yourself some room. Be careful, its pretty busy in this area because of I-40 and a truck stop. The ICTC will be on your left across from UPS. Enter through the second (middle) gate.
